PROFESSIONAL SUMMARY

UX/UI Designer with a background in architecture and experience in creating functional, scalable, and user-centered digital interfaces. I specialize in transforming design concepts into real products by integrating UX processes, visual systems, and frontend development. I have worked in high-production environments, designing over 1,000 interfaces under accessibility standards and visual consistency guidelines.

My approach combines structural thinking, user-centered design, and implementation skills, allowing me to bridge the gap between design and development and deliver viable solutions from concept to execution.

PROFESSIONAL EXPERIENCE

Jan 2025 – Jan 2026

UX/UI Designer & Frontend Implementation

Orbidi Digital - Spain

- Designed and delivered over 1,000 digital interfaces for the government program Kit Digital, ensuring visual consistency, accessibility (WCAG), and scalability.
- Transformed Figma designs into functional interfaces using React and TypeScript, ensuring visual fidelity and performance.
- Optimized the design-to-development process, reducing implementation time by 30% through reusable component systems and Auto Layout.
- Built and maintained design systems based on Atomic Design, improving consistency and efficiency in high-production environments.

Jun 2023 – Dec 2024

UX/UI Designer & Frontend Developer

Tchunza Software For All - Tunja - Colombia

- Designed and developed web applications focused on user experience, defining structures, flows, and reusable components.
- Implemented interfaces in React and Next.js aligned with user needs and business goals.
- Collaborated in defining frontend architectures, ensuring scalability and clarity in data management.
- Integrated REST APIs to build dynamic, data-driven experiences.
- Improved performance and user experience through SSR techniques and load optimization.

Jun 2020 – Oct 2022

3D & Visual Designer

MolBor Construcciones - Tunja - Colombia

- Developed visual and spatial proposals for architectural projects, strengthening skills in composition, hierarchy, and structural thinking.
- Translated technical requirements into clear visual representations for clients.
- Designed and developed the first version of the company's website, initiating my transition into digital design.

EDUCATION

Apr 2019 - Jun 2024	Architecture
Feb 2023 - Feb 2024	React Development Advanced Frontend Specialization for Designers A high-intensity program focused on empowering design professionals with technical software engineering skills. Focused on UI/UX engineering and Frontend frameworks, bridging the gap between artistic vision and functional web architecture
Apr 2024 - Present	Individual courses - Next.js & Modern Frameworks: Completed specialized tracks on Next.js and React, focusing on Server-Side Rendering (SSR), Static Site Generation (SSG), and performance optimization for scalable web applications. - Advanced UI/UX & Design Systems: Advanced training in UX/UI Design, mastering Figma (Auto Layout, Design Systems) and Atomic Design principles to create high-fidelity, accessible interfaces. - TypeScript & Logic: Focused on implementing TypeScript within React environments to ensure type safety and cleaner, more maintainable code architecture. - API Integration: Training in connecting Frontend interfaces with RESTful APIs (FastAPI/Python) and handling complex data states.

CORE SKILLS

UX/UI Design	Frontend	Tools
- User Experience Design - Prototyping & Usability - Design Systems - Atomic Design - WCAG Accessibility	- React / Next.js - TypeScript - HTML / CSS / SCSS - Tailwind / Bootstrap	- Figma (Auto Layout, Components, Variants) - Git / CI-CD

SELECTED PROJECTS

- Descubre Boyacá

Diseño end-to-end enfocado en mejorar la experiencia de usuario mediante investigación, definición de flujos y prototipado funcional para plataforma de recomendación turística.
- Quali

Plataforma enfocada en visualización de cursos para empresas, diseñada desde research de la prueba de concepto hasta producto funcional.
- Bauhaus UI

Exploración conceptual que traduce principios del movimiento Bauhaus en una interfaz digital funcional y responsiva.
